Pleasures U Like

Hey baby love How you do that thing you do Gonna be feeling you Facinated when you pass my way Baby I I can't believe my eyes You took a brother by surprise I know I just want to take this dance with you baby

Go on a date on a Saturday night with you Do whatever you want me to Just don't matter I gotcha right here boo you know it's all you Whatcha doin' all alone in this small filled room Standing by the bar Can't you tell that I'm feeling you

After hours we go rendouvous Make a brother ditch his crew Just to be with you Lights out we gonna get into Pleasures you like (Pleasures you like)

My shorty love How ya gonna just walk by You need to give our love a try So elevate me, stimulating from the look in your eyes My my my my The feelings you can't hide Looks like you need some love tonight
