Simple And Sweet

Jon Bellion

Way before you came I was hollow, hollow, hollow
Used to complicate now I'm alright, alright, I'm fine
All I gotta do now is follow, follow, follow
Used to complicate now I'm alright, alright, I'm fine

You don't need no big production
The synth and just my voice is fine... Yeah
You don't need to wear your makeup
Oh na na
No need to mess with God's design, you're just so simple and sw
eet
You're just so simple and sweet
You're just so simple and sweet
You're just so simple and sweet, yeah, yeah, yeah
Lets keep this simple and sweet

Way before you came I was empty, empty, empty
Used to complicate now I'm alright, alright, I'm fine
All you gotta do now is tell me, tell me, tell me
Used to complicate now I'm alright, alright, I'm fine

You don't need no big production
The synth and just my voice is fine... Yeah
You don't need to wear your makeup
Oh na na
No need to mess with God's design, you're just so simple and sw
eet
You're just so simple and sweet
You're just so simple and sweet
You're just so simple and sweet, yeah, yeah, yeah
Lets keep this simple and sweet

But if things get complicated
Don't worry we gonna take it slow
But if things get complicated
Don't worry we gonna take it slow
We keep it simple and sweet
Sing it out like...
