

Fake Your Own Death

Jon Foreman

You were talking late last night
What would you live like if you had died
And been reborn with a second chance to live
Would you loose your fear of being dead
And be afraid of something else instead?
Maybe you'd be more concerned with living the life you lead

- Chorus -

You can fake your own death
And live the life you've always been afraid of living
Fake your own death
And come alive
Fake your own death
And live the life you've always been afraid of living
Fake your own death
And instead of dying start to live your life

I don't need no fancy flowers
I don't need a big production
When I die
Paddle my ashes out to sea
I don't want to lose you honey
But every story has an ending
When I die
I know that your love's gonna follow me

- Chorus -

You can fake your own death
And live the life you've always been afraid of living
Fake your own death
And come alive
Fake your own death
And live the life you've always been afraid of living
Fake your own death
And instead of dying start to live your life
Yeah
