

Broken-Hearted

Jon Lajoie

Girl you broke my heart
Left me for another
Though you were the one
We'd be together forever

When you decided to cheat on me
You were forgotten something
All the videos of you masturbating
That you made for me
The dildo's, the gabgails, the lingerie
The anal beads one was my fave
And when you were making them it never occurred
To you to hide your face

Silly girl
Guess what I'm doing right now?
Don't worry, I won't do that
I'm not putting them online
I'm just sending them all
To your dad
Bitch
