

Other rappers are comprehensible - not me!  
First on the mic - MC Confusing!  
I took a piss on my nutsack and called it Jack Black  
It's a fact, I got more rhymes then Zach Braff taking a nap  
I attack motherfuckers wearing purple backpacks  
And I snack on towel racks and take a shit on your track  
Yeah your whack, cause everybody understands what you say  
But when I get on the mic, I make milk outta clay  
And I play air guitar with a tube of toothpaste  
And I say karate pencil case and put it on tape

Yo I'm MC Insecure - what's up?  
I really don't think that I'm good enough  
To be rhyming on this track cause my lyrics suck  
All my verses fall flat like a hockey puck  
It took me seven months to write the first part of my verse  
And now I got nothing left so I'll pretend that I got hurt  
Ow! Aw, I think I sprained my ankle  
You guys go ahead and finish the song without me

Yo MC Amnesia up in this bitch  
Woke up five days ago lying in a ditch  
Didn't know who I was I couldn't remember shit  
Apparently something happened that was traumatic  
I used to have more rhymes but I can't remember them  
Seriously I'm freaking out I can't remember anything!  
Whats my motherfucking name?  
(Seriously does anyone know what my name is?)

Yo I'm MC Public Urination - what - what!  
I take a fucking piss on a fucking sidewalk  
Anytime, anyplace, I just whip out my cock  
And empty my bladder while you motherfuckers watch!  
You other MCs can't handle this shit!  
You're just a little bitch afraid to pee in public  
You run into a toilet every time you have to piss  
Yo fuck that shit - I just whip out my dick!

Yo MC Fatigue - yeah that's me  
Every time I grab the mic I fucking fall asleep

I'm the guy who sings the chorus  
(It breaks up the song)  
My part is kinda boring  
(I wish that I could go home)  
But they're paying me to sing the chorus  
(And I really need the cash)  
Cause I'm unemployed at the moment  
(Just moved back in with my dad)

Yo I'm MC Doesn't Know What Irony Is  
Walked up to my girl and I gave her a kiss  
She said "Let's go to your place, I'll suck your dick."  
I said "Hell yeah bitch, that's so ironic!"

Yo I'm MC Gets Side-Trackd Easily  
My rhymes are badass like Gandolfini

You know he's known for the Sopranos but he's also in movies  
Like Get Shorty and Terminal Velocity  
Which I didn't really like cause I don't like Charlie Sheen  
Well I guess in Hot Shots, he was kinda funny  
But I prefer Leslie Nielsen in the Naked Gun  
You know who else was in that movie? O.J. Simpson  
Which is kinda weird, knowing what he did after that  
Wait, what was I saying?  
I think I got side-tracked.

Yo I'm MC Lethal Weapon 1, 2 & 3  
I really like those movies but the 4th disappointed me  
Danny Glover, Mel Gibson and Joe Pesci  
Why did they have to make a 4th?  
They had a perfect trilogy!

MC Lethal Weapon 4 that's me  
I disagree with MC Lethal Weapon 1, 2 & 3  
Although I agree that it is a groundbreaking trilogy  
The 4th was also good they added Chris Rock and Jet Li!

Yo I'm MC Shit My Pants Frequently  
It usually happens when I'm walking down the street  
Or when I'm hanging out with some fly-ass hoes  
There we go!  
Thank god I brought a change of clothes!

Yo I'm the MC with the final verse  
I'm supposed to sum up everything you heard  
But mutherfuckers I don't really have the time  
So fuck that and come back to the Chorus Guy

I'm still singing the chorus  
(Thank god we're almost done)  
I hate singing the chorus  
(It's Such a boring fucking job)  
I'm gonna take my 40 bucks  
(That's what they're paying me)  
And I'm gonna go get really drunk  
(Masturbate then go to sleep)
