

# People

Jon McLaughlin

People doing better  
People needing more  
People writing letters  
People get ignored  
People saving money  
And people saving face  
People going hungry  
People waste away

Needed one reason  
To live in a world  
Where nothing is worthwhile  
'Till it's gone  
You spend your life  
Moving on

People wearing nothing  
And people wear it all  
People scared of something  
People live in doubt  
People going places  
And people running home  
And those who know what grace is  
People disown

Give me the one reason  
To care anymore  
Cause there has got to be  
A better way  
A road that leads  
To better days

And in the back of our minds  
And corners of our eyes it lies  
And I will love you back  
I'll love you back

Give me the one reason  
To care anymore  
Cause there has got to be  
A better way  
A road that leads  
To better days
