Push It To The Limit

Jon Oliva's Pain

White witch fever, the only way you know Night time creeper, need somewhere to go Schizoid, paranoia running through your mind Everything's is closing in, you're running out of time

Gotta push it to the Limit Gotta push it to the Limit Gotta push it to the Limit Gotta push it to the Limit

Psycho liar, do anything for cash You'd cut your grandma to make this feeling last No sense of reason, the ecstasy you chase Every second brining you closer to your grave

Gotta push it to the Limit Gotta push it to the Limit Gotta push it to the Limit Gotta push it to the Limit
