

# Time To Die

Jon Oliva's Pain

You have crossed the line  
Your suicide, the final ride  
You ignored the signs  
A helpless fight it ends tonight  
Your souls traveling on

All the twisted things you've done  
You thought you had the master plan  
Now it's all caught up to you  
And still you wonder why  
I can see right through you brother  
You're not fooling anyone  
Now you pay the final price  
It's time for you to die

Time is all but out  
Death calls for you, what can you do  
Try to form a lie to buy some time  
So you can run and hide  
And beg and plead before the lord  
You'll be on your knees

All the twisted things you've done  
You thought you had the master plan  
Now it's all caught up to you  
And still you wonder why  
I can see right through you brother  
You're not fooling anyone  
Now you pay the final price  
It's time for you to die  
It's time for you to die

All the twisted things you've done  
You thought you had the master plan  
Now it's all caught up to you  
And still you wonder why  
I can see right through you brother  
You're not fooling anyone  
Now you pay the final price  
It's time for you to die

All the twisted things you've done  
You thought you had the master plan  
Now it's all caught up to you  
And still you wonder why  
I can see right through you brother  
You're not fooling anyone  
Now you pay the final price  
It's time for you to die  
It's time for you to die  
It's time for you to die
