

Love You From Here

Jon Pardi

You packed your clothes and all your stuff
'Til there was nothin' left of us
Guess what we had ain't enough
That map beside you on the seat
Is ridin' right where I wanna be
Wish I could stop your leavin' me

But no matter how far you go
My love is strong, won't lose a hold
Just 'cause you're gone won't mean we've disappeared
I can still love you from here

It's your decision, it's not mine
You're the one who drew this line
I know I can't change your mind
You might wind up in Santa Fe
Santa Cruz or in L.A.
Across the ocean that's okay
Just know that

But no matter how far you go
My love is strong, won't lose a hold
Just 'cause you're gone won't mean we've disappeared
I can still love you from here

If you leave now you'll just ride into the sun
So, why don't you wait 'til mornin' comes?
Just know that

But no matter how far you go
My love is strong, won't lose a hold
Just 'cause you're gone won't mean we've disappeared
I can still love you from here

I can still love you from here
