## **Ready For Love**

Jon Secada

Moments, comments Then one thing that you said Did it again Turned our world upside down again I surprised you I surprised myself Is this what we need.

I don't wanna stop I can do this, I am ready I know I can do this I don't really wanna stop this I can love you like no other, I can Ready for love, I feel fine I feel just fine Do I ask too much.

Rebounded, founded What I hope is missing in me I'll admit this is new to me Did I catch you at a bad time Do I ask too much.

I don't wanna stop I can do this, I am ready I know I can do this I don't really wanna stop this I can love you like no other, I can Ready for love, I feel fine I feel just fine Ready for love.

I surprised you I surprised myself Is this what we need.

I don't wanna stop I can do this, I am ready I know I can do this I don't really wanna stop this I can love you like no other, I can Ready for love, I feel fine I feel just fine Ready for love.
