

# Don't Charge Me For The Crime

Jonas Brothers

This is life in this world  
Some things go right  
Some things go wrong  
It's just how the world can be  
People just want to be free  
Yeah...

The verdict came in and it said I was guilty  
I looked at the judge, "Hey America built me."  
Tried to get rich but they label me filthy  
Only God can judge me, touch me, feel me...  
My friend calls me at 9 o'clock  
Says, "Get the car it's time to rock"  
Never heard him speak this way  
I grab the keys and hit the road  
It's all a flash but who would know  
How the story would unfold

Don't charge me for the crime  
Wrong place wrong time  
Don't charge me for the crime  
Wrong place wrong time  
Don't charge me for the crime

My friend gets in the car with bags  
Filled to the top with loads of cash  
And throws his pistol on the dash  
Says, "I'm sorry for the crime  
That I've involved you in this time  
You're the only friend I've got"

So don't charge me for the crime  
Wrong place wrong time  
Don't charge me for the crime  
Wrong place wrong time  
Don't charge me for the crime

I start to freak and scream so loud  
Just like the females in the crowd  
That's when he gets in my head  
You could live just like a king with everything  
You'd ever need  
All the dreams of every man

Don't charge me for the crime  
Wrong place wrong time, uh, yeah  
Don't charge me for the crime  
Wrong place wrong time, you know, uh  
Don't charge me...

Siren sound and my heart was poundin'  
I looked at my man as the cops surround him  
A teen on the scene with no objective  
The American dream can be so deceptive  
Now I see the flashing lights  
There goes my future and my life  
Now I've gotta do what's right

I stop the car and throw the keys  
Out of the window sets me free  
I throw the pistol in the back  
Throws me out of the car  
You know me well  
I'm not going to jail  
I'm not paying your bail  
Believe me when I say

They won't charge me for the crime  
Wrong place wrong time  
Don't charge me for the crime  
Wrong place wrong time  
Don't charge me...  
Wrong place wrong time  
Don't charge me for the...  
Crime
