

Love Is On Its Way

Jonas Brothers

1. Young hearts, I believe that we are not far
From becoming who we truly are
Love is on its way
Dreamers, you see everything in colour
While the world is getting darker
Love is on its way

R: So hold on another day
'Cause love is on its way
You'll find it's gonna be okay
'Cause love is on its way
It's alright; you'll find a brighter day
Cause love is on its way

2. Leaders, show us how to love each other
You can help us to recover
Love is on its way
Lonely, I believe that you will find me
And together we will truly see
Love is on its way

R: So hold on another day...

R: Hold on another day
'Cause love is on its way
You'll find, it's gonna be okay
'Cause love is on its way
It's alright; you'll find a brighter day
Cause love is on its way

Cause love is on its way
Cause love is on its way
