Lullaby

Jonatha Brooke

There you are, bathed in bright light All your friends have gone You've had a great fright But all the world's a stage

Don't be shy, take your place now You know the show must go on Despite how crazy this night feels

On your mark, watch your step, go All your life led you here, so...

Say goodnight, Lullaby Say goodnight, don't say why

Cuz there you are, bathed in bright light, All your friends have gone You've had a great fright But all the world's a stage
