

Close To You

Jonathan Clay

[Verse]

I think it's time we should let it all on the table
You got my heart running like a car on a cable
We let the world pass us by
You show me a life full of color
We'll take a walk outside watching as our words run for cover

[Chorus]

Maybe it's the way you get that look in your eye
The way you captivate me with the hint of your smile
I've got to be (got to be)
Close to you
I've got to be (got to be)
Close to you

Babada ba bada dada
Babada ba bada

[Verse]

I think we know
There's no way to stop what's in motion
But I don't mind
Feeling such a beautiful emotion

[Chorus]

Maybe it's the way you get that look in your eye
The way you captivate me with the hint of your smile
Oh, I've got to be (got to be)
Close to you
Oh, I've got to be
Close to you

Babada ba dada dada
Babada ba bada

[Verse]

Doesn't take a song to say
How I can't stand when you're away
Our world it turns to black and gray
When you're nowhere around
I lose the clarity I've found

[Chorus]

Maybe it's the way you get that look in your eye
The way you captivate me with the hint of your smile
I've got to be
Close to you
I've got to be
Close to you

Babada ba dada dada
Babada ba bada

Maybe it's the way you get that look in your eye
Oh, I've got to be
Close to you
Oh, I've got to be

Close to you
The way you captivate me with the hint of your smile
Oh, I've got to be
Close to you
Oh, I've got to be
Close to you
