

## Down Today

Jonathan Coulton

Tell me what you think I've been doing wrong  
I'm too high to hear what you say  
Maybe write a letter if it takes too long  
I won't come down today

Found a pretty girl who loves me true  
I don't ask why, and she won't say  
I'm about ten miles over you  
I won't come down today

I just bought a balloon  
Me and the girl, takin' a ride  
Float just under the moon  
Dumping your things, over the side

If you're gonna leave, could you let me know?  
I won't try to make you stay  
Gonna throw a party on the day you go  
I won't come down today

I just bought a balloon  
Me and the girl, takin' a ride  
Float just under the moon  
Dumping your things over the side

I might be coming home but I don't know when  
I'm up so high, I might float away  
I don't ever wanna come down again  
I won't come down today  
I won't come down today  
I won't come down... today
