

# So Far So Good

Jonathan Coulton

Today's the day it gets better  
This much I know  
I'm gone, I'm getting out  
And all you suckers can watch me go  
And I don't know where I'm going yet  
But it's somewhere quite a ways from here I'll bet

It's gonna be so far, so good (So far so far so far so good)  
It's gonna be so far, so good (So far so far so far so good)  
It's gonna be so far, so good (So far so far so far so good)

Too late to make it all better  
This time it's real  
No need for looking back  
Don't have to talk about how we feel  
And there's no-one we can pin this on  
Cause you can't see that it's going till it's gone

But we got so far, so good (So far so far so far so good)  
You know we got so far, so good (So far so far so far so good)  
Yeah, we got so far, so good (So far so far so far so good)

Not bad, we could have done better  
Next time we'll know  
So sad, should have been  
If only wishing would make it so  
In a thousand years we'll meet again  
And with the saddest smile you'll ask me how I've been

I'm gonna say so far, so good (So far so far so far so good)  
I'm gonna say so far, so good (So far so far so far so good)  
I'm gonna say so far, so good
