Well it's early in the morning, full belly, clean bum  
I got my cup of cheerios in case I want some  
Jacket, hat, diaper bag, carried out the door  
And I know where we're going cause we've been there before  
There's a warm breeze blowing and it tickles my hair  
And the sun shines down everybody is there  
Every day is such a good day

Then we stop off at the corner and she pulls up next to me  
A sporty crimson red McLaren Techno XT  
Me I'm sitting pretty in my Bugaboo Frog  
Swivel wheel suspension so I sleep like a log  
And my five point harness keeps me buckled in tight  
And the XT's gunning as we wait for the light  
And the wheels start spinning

My Bugaboo is heavy so we're taking off slow  
But once we get her going she's got get up and go  
The McLaren's got a lead but I can see the slicks spin  
My wheels are big and knobby I can feel them digging in  
And we blow right by, now we're taking the lead  
And the world's on fire with the wind and the speed  
Every day is such a good day
