

# Summer's Over

Jonathan Coulton

Summer's over  
You're going back to school  
I'm staying here  
Where else would I go?

Watch the leaves turn  
Close up the swimming pool  
Winter comes in  
Sooner than you know

Nights get cold and the flowers let go  
Bide their time under the snow  
As they go down they say  
Goodbye  
Goodbye

Summer's over  
Because it has to be  
Just like before  
Around and around

It's a circle  
That's bringing you back to me  
Stay where I am  
I'm lost and found

When you go you come back again  
Close the door, the cold's getting in  
As I go down I say  
Goodbye  
Goodbye
