

# Come With Me

Jonathan Davis

Come with me  
We will travel the seas  
We will embrace each other  
And lose touch of reality  
Climb over mountains  
And soar through the air  
All I want give  
Is for you  
To be there

I know you're out there waiting  
Just hanging around  
You're that jewel that I've been searching for  
To top my cloud

Cause there really is no reason  
And there's not much to explain  
Why I really need to find you  
You can reach there for me

Come with me  
We will travel the seas  
We will embrace each other  
And lose touch of reality  
Climb over mountains  
And soar through the air  
All I want give  
Is for you  
To be there

I reach for your heart  
I know from the start  
That I keep searching for you  
As long we're apart  
It's flowing through my mind  
And started to climb  
Through out of my body  
Was that such a crime?

Yeah  
Yeah  
Yeah  
Yeah  
Yeah  
Yeah
