

Another Way

Jonathan Nelson

It could have been another way but I'm standing here to testify
today
Out of the snare surely I escaped ohhh it could have been another
way
Where would I be without God on my side?
He covered me by his grace I am alive
There was a plan, design to take my life
But got broke the scam I'm praising I survived
Oh yes it could have been another way
It could have been another way but I'm standing here to testify
today
Out of the snare surely I escaped ohhh it could have been another
way
Still here still praise could have been another way Ohh it could
have been another way
