Another Way

Jonathan Nelson

It could have been another way but I'm standing here to testify today

Out of the snare surely I escaped ohhh it could have been anoth er way

Where would I be without God on my side?

He covered me by his grace I am alive

There was a plan, design to take my life

But got broke the scam I'm praising I survived

Oh yes it could have been another way

It could have been another way but I'm standing here to testify today

Out of the snare surely I escaped ohhh it could have been anoth er way

Still here still praise could have been another way Ohh it coul d have been another way
