

Burn It Down!

Jonezetta

Wake up!

Do you hear the sound of music from above?

Our city sits upon the glow of bomb.

The fire is thick, the flame is hot

Like it or not, gonna burn this mother down!

Remember!

All the money that you made will never pay

For you to scream for your life and run away

The fire is thick, the flame is hot.

Like it or not, gonna burn this mother down!

Honey don't think that we're gonna be alright

It's coming and I swear it's out to take our lives
