

# Popularity

Jonezetta

They got the raddest hooks  
They got the dopest looks  
And when they're misunderstood it's even better  
And they all agree  
The future ends with me  
On their computer screens  
Like they even...

Matter to the words we sing  
Or feel apart in our melodies  
If all you have is yourself, you're never going to need anyone  
else

Popularity- Do you think it's scary?  
Everybody's talking with their own opinion  
Popularity- It's a lot to carry  
I'll fall asleep to you screaming in my brain

Float into a room  
I feel the attitude  
When I'm all alone it's even better  
Ty drops a line  
We all fall right in time  
When you sing along, that's when we know you...

Matter to the words we sing  
Or feel apart in our melodies  
If all we have is ourselves, you're never going to need anyone  
else

Popularity- Do you think it's scary?  
Everybody's talking with their own opinion  
Popularity- It's a lot to carry  
I wake up to you screaming in my brain!

Popularity... i keep on keeping but everyone's dying for their  
own opinion  
Popularity- Yeah I think it's scary  
I'll fall asleep to you screaming at my brain
