

# The Love That Carries Me

Jonezetta

She found away to get away from all  
Her stupid little things.  
She says it's hard to stay away from all  
'the love that carries me'  
Now they're never playing  
It's so frustrating how the radio station  
Plays so little see  
They'll spin it again  
'The Love That Carries Me'

So get the town to buy the song they'll play  
As many times as they can  
She'll sing the melody over me  
But baby don't understand

Now they're never playing  
It's so frustrating how the radio station  
Plays so little see  
They'll spin it again  
'The Love That Carries Me'

Sorry, sorry but my words mean nothing,  
When the chorus dies does it kill you to be alone
