Lead Balloon

Joni Mitchell

"Kiss my ass!" I said and I threw my drink Tequila trickling Down his business suit Must be the Irish blood Fight before you think Turn it now You can't cowtow You can't undo it It's his town And that went down Like a lead balloon Lead lead lead balloon He said "Sic her, Rover" That went over Like a lead balloon Lead lead lead balloon Lead balloon An angry man is just an angry man But an angry woman Bitch! I had to ask him for a helping hand It came with the heart Of a Bonaparte Of a frozen fish It's his town And that went down Like a lead balloon Lead lead lead balloon He said "Sic her, Rover" That went over Like a lead balloon Lead lead lead balloon Lead balloon Lead balloon, lead lead lead balloon Lead balloon, lead lead lead balloon Lead balloon, lead lead lead balloon Lead balloon It's his town and that went down Like a lead balloon Lead lead lead balloon He said "Sic her, Rover" That went over Like a lead balloon Lead lead lead balloon Lead balloon Lead lead lead balloon Lead lead lead balloon Lead balloon
