

# Bump In The Road

Jonny Lang

Breaker, breaker, breaker 1 9  
Is there anybody out there?  
I've been running this road for the first time  
Sure like to know what's ahead

I've been on the wrong track with the wrong map  
And I'm trying to find my way home  
So come back if you're on the line  
Let me know I'm not alone

With this heavy load to tow behind  
It's all I can do to stay between the lines  
And whatever may come my way

I can't slow down not for the weather  
Won't back down, I know it gets better  
Too far now if I can keep it together  
Won't turn around not now for just a bump in the road  
Oh, for just a little bump in the road

Breaker, breaker, stay on the line  
I'm about to fall asleep at the wheel  
See, I've been pushin' my whole life to meet the deadline  
And I'm waiting for my second wind

I can't make it alone, I can't survive  
I'm gonna need you, don't make it out alive  
To the other side

Can't slow down not for the weather  
Won't back down, I know it gets better  
Too far now if I can keep it together  
Won't turn around not now for just a bump in the road

I've got nothing to prove but so much to lose  
And I'd gladly give it up just to hold  
Onto you 'cause you're all that I've got, all I want, all I need

Can't slow down not for the weather  
Won't back down, I know, I know it gets better  
Too far now if I can keep it together  
Won't turn around

Can't slow down, won't back down, too far now  
Won't turn around not now for just a bump in the road

Not now for what comes my way  
Just a little bump in the road
