

# Happiness And Misery

Jonny Lang

A thousand people here but im alone  
My only friend is my dads radio  
Seventeen feels like im thirty-four  
How do i get myself up off the floor  
I need a cure

Happiness and misery  
Im up and down so confused  
I want to scream  
But theres nobody listening

Stop the war inside of me  
Pull the plug, kill the lights  
I cant break free  
Its happiness or misery

I wish the clouds would all come out today  
Send the rain and wash it all away  
Am i going crazy i dont know  
I wonder will anybody miss me if i go

Happiness ad misery  
Im up and down so confused  
I want to scream
