

# I Love You The Best

Jonny Lang

Babe why are you seeing all those other men  
I can't go on much longer the way our love has been  
Babe I think you've got yourself into a big mess  
But when it comes to lovin' babe I love you the best

Babe you know our love has been as dark as the night  
Come on help me bring our lovin' back into the light  
Honey I ask for more but all you ever give me is less  
When it comes to love I love you the best

Baby why you always cheatin' on me  
'Cause you know that ain't the way it should be  
Get your act together baby won't you please  
Honey why you always tramplin' on me, yeah

Girl you know our love has been as dark as the night  
Come on help me bring our lovin' back into the light  
Baby I ask for more but all you ever gimme is less  
When it comes to love I love you the best

Baby why you always cheatin' on me  
'Cause you know that ain't the way it should be  
Get your act together, babe won't you please  
Honey why are you always tramplin' on me, yeah
