

Nice & Warm

Jonny Lang

Can't wait to get back home
Where the sun is always, nice & warm

Can't wait to get back home
Where the sun is always, nice & warm

You know it's freezin' out here
And that howlin' wind sends a nasty chill through my bones

Oh you know I shivered myself to sleep last night
The cold won't let me be
That's when I woke up and realized that
This ain't no place for me

And I can't, can't wait to get back home
Where the sun is always nice & warm

You know it's freezin' out here
And that howlin' wind sends a nasty chill through my bones

Some good old friends got together
And they took me away
From this cold old alley babe
To a warm place I could stay

Oh I can't can't wait to get back home
Where the sun is always nice & warm

I'm so happy to see you all
And that old nasty chill is gone
