

## River

Jonny Lang

I know the river is wide, Our chances are slim  
But this is where it all begins  
Standing here on the shore, with just our lives  
and nothing left to lose again  
I know the water is crushing all around you  
You're soaking wet with the threat, it just might drown you  
But we both know what we gotta do

We could run, we could hide, we could stand and fight  
I know the river is wide, I know the river is wide  
Take my hand we're gonna walk on the water tonight  
I know it's waiting, waiting on the other side

I can feel it, inside. I can see it, tonight

Girl we've been trapped on the banks, for far way to long now  
And I think that we both know, the only way is to leave this so  
lid ground now  
Make a break for other shores  
There's nothing we left behind worth holding on to  
I'm sick of just getting by, and truth be known, you are too  
Now we both know what we gotta do

Can't you feel it, inside  
Can't see it, tonight

Oooo  
Oooo  
Oooo

Girl we didn't come all this way, to turn around now  
And I think it's time we both leave this hallowed ground, how a  
bout now  
Take my hand baby don't turn around

We could run, we could hide, we could stand and fight  
I know the river is wide, I know the river is wide  
Take my hand we're gonna walk on the water tonight  
Come on baby, let's walk on the water tonight

I can feel it, inside. Can't you see it tonight  
Can't you see it, tonight. I can feel it, tonight
