

## Still Wonder

Jonny Lang

I wonder about her, I wonder where she went from here  
Still wonder about her, but nothings comin' too clear  
Since she left me all alone my days go by like years

Well I'm thinkin' about her and all the things she used to say  
Still I'm thinkin' about her but something's getting in the way  
I remember when she told me she would up and leave me someday

I drive around in circles through the city  
Just waitin' for the lights to change  
But right about when midnight hits me  
Moonlight gets me feelin' kind of crazy

I wonder about her, does she still wear the same old ring  
I still wonder about her and I know it ain't no big thing  
Well she left me all alone now and I'm just waiting for my phone to ring

I've been dreaming about her, I guess I never Really knew  
That living without her was more than I could ever do  
'cause she ain't comin' back, no she ain't comin' back  
No she ain't comin' back 'cause there's nothin' left to come back to
