

That Great Day

Jonny Lang

We'll meet at the river
We'll be delivered of every chain
Down into the water, children
Mothers and fathers in His sweet name

To drown all our sins
And come up again forever changed
Never to return to the people we were
Before that great day

We'll patiently wait 'til we see His face
And when He appears to wipe all our tears forever away
Then we'll be together in Heaven forever
On that great day, on that great day

We'll patiently wait 'til we see His face
And when He appears to wipe all our tears forever away
Then we'll be together in Heaven forever
On that great day, on that great day

On that great day, on that great day
