

# Don't Run

Jordan Knight

I feel like the world is on my head  
I don't wanna lose what made me a man  
Still when I call your name  
I wait, you'll say, you're so far away

Now that I feel the well so dry  
I need you to fill me up inside  
Baby you turn me on and on

Just wanna hold you  
I'm dying to show you  
Don't run from me  
Don't turn your back on me  
We're getting closer  
Don't say that it's over  
Don't run from me  
Don't turn your back on me  
Come out of the dark  
Don't tear us apart  
Don't run from my heart

It took me some time to understand  
What all along I held in my hands  
If you give me one more chance  
I'll prove, I'm true, to you

Now every night it seems so wrong  
I'm here all alone where you belong  
Girl let me turn you on and on

I'm such a dreamer  
When I'm sleeping, I'm thinking of you  
A million roses, waterfalls, around a bed for two  
Sippin' fruits with the best babe  
I'm not here for the rest babe  
Need your candlelight, sweet love tonight  
I can't afford to lose you
