

# I Wish

Jordan Knight

I saw you pass me by just yesterday  
I followed every single move you made  
And I wonder if you see me stare  
I feel so close to you every time you're there

I wish you were mine  
Every time I see you walk by  
I wish there was time  
But the moment never seems to be right

I wish that I could find the strength  
Then I wouldn't feel like this  
To have you here right next to me, I wish  
To have you here right next to me, I wish

It's getting hard for me to sleep at night  
'Cause all I keep thinking about is the look in your eyes  
And am I crazy, 'cause we never met before  
But it feels like we have

I wish you were mine  
Every time I see you walk by  
I wish there was time  
But the moment never seems to be right

I wish that I could find the strength  
Then I wouldn't feel like this  
To have you here right next to me, I wish  
To have you here right next to me

Oooh yeah  
Girl, I wish I had you-so bad

So many times I thought about approachin' you  
But I freeze up every time

I wish you were mine  
Every time I see you walk by  
I wish there was time  
But the moment never seems to be right

I wish that I could find the strength  
Then I wouldn't feel like this  
To have you here right next to me, I wish  
To have you here right next to me, I wish
