My Heart Is Saying Now

Jordan Knight

Maybe you dont know
How you live in my dreams, my dreams
Something 'bout your smile
Starts the butterflies inside me

Maybe you dont see
The two of us like I do, I do
But no one wants you more
Than this dreamer standing right beside you

Whatever it takes
I'm taking it all the way
Never gonna find me a better day
Never gonna love any other way
Baby my heart's sayin now
Hoping and waiting for the right time
Praying for the words that will make you mine
Baby, I'm shaking but my heart's saying now

When I think of you
My heart takes a tumble, tumble
If I could have one wish
The walls around your heart would crumble
I've waited for so long
Until the perfect moment came along
Don't let me be invisible
Tell me girl is it me you really want?

Whatever it takes
I'm taking it all the way
Never gonna find me a better day
Never gonna love any other way
Baby my heart's sayin now
Hoping and waiting for the right time
Praying for the words that will make you mine
Baby, I'm shaking but my heart's saying now

Tell me now, my baby
I need to know
You drive me crazy
All night I think about you
Now I'm telling you the way that I feel
'Cause I know it's for real

Whatever it takes
I'm taking it all the way
Never gonna find me a better day
Never gonna love any other way
Baby my heart's sayin now
Hoping and waiting for the right time
Praying for the words that will make you mine
Baby, I'm shaking but my heart's saying now
