

Fingerprints

Jordan Pruitt

Hey you left your fingerprints on your fingerprints all over me
Hey you left your fingerprints on your fingerprints all over me

I feel you linger, where your fingers
were drawin' lines on my skin, mhm
I'm getting warm blush, where your breath was,
I wanna breathe it again

I just wanna ask, just wanna ask if you miss me
Taste, taste every place that you kissed me.
I thought I could fake it, but I'm feelin naked,
in front of a crowd, tryin to get out, I can't take it

Hey you left your fingerprints, all your fingerprints all over me
hey you left your fingerprints, all your fingerprints all over me.
On my lips, on my skin, can't erase where you've been
Where you touched me I still feel the heat.
You left your fingerprints, all your fingerprints all over me

I never meant to, somehow I let you,
murder me in the dark.
We treated something like it was nothing
but now I'm here tryin to get back my heart

I just wanna ask, just wanna ask if you miss me
Taste, taste every place that you kissed me.
I thought I could fake it, now I'm feeling naked,
in front of the crowd tryin to get out, I can't take it

Hey you left your fingerprints, all your fingerprints all over me
Hey you left your fingerprints, all your fingerprints all over me
On my lips, on my skin, can't erase where you've been
Where you touch me I still feel the heat
Hey you left your fingerprints, all your fingerprints all over me

I'm feeling no regret, the feeling was so intense
That the thought of your hands on me, is making me crazy
so how can I just forget when I feel all of this
'cause you left all your fingerprints all over me
all over me, all over me,
all over me, all over me
I feel you linger

Hey you left your fingerprints, all your fingerprints all over me
hey you left your fingerprints, all your fingerprints all over me.
On my lips, on my skin, can't erase where you've been
Where you touched me I still feel the heat.
You left your fingerprints, all your fingerprints all over me
