

# No Strings Attached

Jordan Pruitt

Get excited and I get let down  
Screw dinner you just wanna make out  
Was it something I misread?  
Should I show you all the messages?  
Get excited and I get let down

I wanna fly  
But you give me lies  
I need something that lasts more than just tonight  
And I wanna fall without looking down  
Can't give myself and not give nothing back  
No Strings Attached yeah  
No Strings Attached

Just be real with me don't you waste my time  
I hope you know it's cool if you change your mind  
I see the color in your eyes  
You're seeing everything in black and white  
Boy be real with me don't you waste my time

I wanna fly  
But you give me lies  
I need something that lasts more than just tonight  
And I wanna fall without looking down  
Can't give myself and not give nothing back  
No Strings Attached

The show is over curtains falling  
You better go your pride is calling  
You're pulling me in it's time to let you go

I wanna fly  
I wanna fly tonight tonight tonight  
I wanna fly  
But you give me lies  
I need something that lasts more than just tonight  
I wanna fall without looking down  
I can't give myself and not give nothing back  
I wanna fly  
But you give me lies  
I need something that lasts more than just tonight  
And I wanna fall without looking down  
Can't give myself and not give nothing back  
No Strings Attached yeah  
No Strings Attached mmmh
