

Secrets

Jordan Pruitt

Are no good, oh yeah

I know your secrets
I know who you're really with
You tell me one thing
And I saw something different
Why all the secrets
You could've told me who you're really with
So I didn't have to find out
That you would be leaving me like this

Do do do do do
Why'd you do it?
Do do do do do
Why'd you do it?

Guess I have to let you go
Cause I was the last to know
That our love was on the ropes
You just can't fix what's already broke
So if it takes a degree
From the secrets that you keep
Too bad you had to speak
You thought you had it all but you don't have me

(I thought I had it all)
You don't have me
(I should've had it all)
(I could've had it all)
You can't have me

Humiliated
All I wanted was the truth
Not appreciated
Wasn't I good enough for you?
Manipulated
You pulled the covers over my eyes
So I couldn't see what your doing
You were just a player in disguise

Do do do do do
Why'd you do it?
Do do do do do
Why'd you do it?

Guess I have to let you go
Cause I was the last to know
That our love was on the ropes
You just can't fix what's already broke
So if it takes a degree
From the secrets that you keep
Too bad you had to speak
You thought you had it all but you don't have me

(I thought I had it all)
You don't have me
(I should've had it all)

(I could've had it all)
You can't have me

All your secrets
Hurt so bad
Oh

Do do do do do
Why'd you do it?
Do do do do do
Do do do do do
You didn't have to do it
Do do do do do

Guess I have to let you go
Cause I was the last to know
That our love was on the ropes
You just can't fix what's already broke
So if it takes a degree
From the secrets that you keep
It's so sad you had to speak
You thought you had it all but you don't have me

(I thought I had it all)
You don't have me
(I should've had it all)
(I could've had it all)
You can't have me

(I thought I had it all)
You don't have me
(I should've had it all)
(I could've had it all)
You can't have me
