

Something's Gotta Give

Jordan Pruitt

Travelling all alone on one way street
Passing all the thing that we could be
And I'm wondering when
I'm gonna see you again
And I'm wondering why
We're only saying goodbye

I've been waiting for the time for you to come
But you never do...
And just another call telling me
That you wanting to...
I'm trying hard to make it work
I don't know what I deserve
Something's gotta give
Something's gotta give
Something's gotta give
Before I get myself to you

Our song on the radio
But I don't wanna sing
Not asking for many more
Than what's you promise me
And I'm wondering when
I'm gonna see you again
And I'm wondering why
We're only saying goodbye

I've been waiting for the time for you to come
But you never do...
And just another call telling me
That you wanting to...
I'm trying hard to make it work
I don't know what I deserve
Something's gotta give
Something's gotta give
Something's gotta give
Before I get myself to you

And I'm wondering why
We're only saying goodbye
