

# Let It Rain

Jordin Sparks

Shout it out, I can't hold back no more  
I let it out, all these feelings that were trapped inside  
I was frozen every time I looked in your eyes

Clear my head from all the clutter  
Things I should have said that wasn't me  
No, I can't live like that breaking up  
And there is no looking back

Every little tear I was scared to cry  
Everything I feared but I kept inside  
I don't want to hold it back one more day  
Oh, I'll wash it away

Every time a thought clouded up my head  
Every single word that I never said  
I refuse to feel ashamed, let it rain  
Let it rain, let it rain

Clear the sky, I start to breath again now  
Been too high, let you through to who I am inside  
Every layer till you get underneath my skin  
Let you in, let you in

Every little tear I was scared to cry  
Everything I feared but I kept inside  
I don't want to hold it back one more day  
Oh, I'll wash it away

Every time a thought clouded up my head  
Every single word that I never said  
I refuse to feel ashamed  
Let it rain, let it rain

All the hurt that's been stuck inside of me  
Make it pour, make it bleed  
Let the rain wash it clean, wash it clean  
Let it rain

Every little tear I was scared to cry  
Everything I feared but I kept inside  
I don't want to hold it back one more day  
Oh, I'll wash it away

Every time a thought clouded up my head  
Every single word that I never said  
I refuse to feel ashamed  
Let it rain, oh, let it rain

Yeah, wash me clean  
Wash me clean
