

# This Is My Now

Jordin Sparks

1. There was a time I packed my dreams away  
Living in a shell, hiding from myself  
There was a time when I was so afraid  
I thought I'd reached the end  
Baby that was then  
But I am made of more than my yesterdays

R: This is my now, and I am breathing in the moment  
As I look around  
I can't believe the love I see  
My fears behind me, gone are the shadows and doubts  
That was then, this is my now.

2. Had to decide was I gonna play it safe  
Or look somewhere deep inside  
and try to turn the tide  
Find the strength to take that step of faith

R: This is my now...

\*: And I have the courage like never before, yeah  
I've settled for less but ready for more  
Ready for more

R: This is my now... (2x)

This is my now
