

Walking on Snow

Jordin Sparks

You fire words but all they do is ricochet
You think I'm paying the price but it's not costing me

Your love was a waste of time, you've been left behind
You made no mark on me
You're done and you left no sign, you're not on my mind
Don't try to press rewind

It's like walking on snow without leaving a trace
And all that you've said never carried no weight
I came out untouched and in another place
When you're gonna get it, I'm so unaffected

When I was flying high you tried to clip my wings
You shoot me out of the sky
You tried to make it up buying expensive things
My love you cannot buy

Your love was a waste of time, you've been left behind
You made no mark on me
You're done and you left no sign, you're not on my mind
Don't try to press rewind

It's like walking on snow without leaving a trace
And all that you've said never carried no weight
I came out untouched and in another place
When you're gonna get it, I'm so unaffected

It's like walking on snow without leaving a trace
You're not gonna see, gonna see this heart break
You huff and you puff but I'm not blown away
When you're gonna get it, I'm so unaffected

You're trying to fight fire faulting me
You project your self hate so easily
You already lost so you push me lower
As I deny slow so you punish me slower

One, two, three, four

It's like walking on snow without leaving a trace
And all that you've said never carried no weight
I came out untouched and in another place
When you're gonna get it, I'm so unaffected

It's like walking on snow without leaving a trace
You're not gonna see, gonna see this heart break
You huff and you puff but I'm not blown away
When you're gonna get it, I'm so unaffected

Leaving a trace, see this heart break
Untouched and in another place
When you're gonna get it, I'm so unaffected
