

# Whenever

Jordin Sparks

(VERSE 1)

I hope somehow you know by now, that I will always love you. Th  
rough think and thin, down the roads that bend, I'll never leav  
e your side. I'd pull the stars down from the sky, every night  
just to look into your eyes.

(CHORUS)

Whenever you want, wherever you need, whatever you wish for, wh  
atever you dream, I'll bring it to you, wherever you are. I won  
't be that far. Oh, whenever you heart breaks, just call my nam  
e, wherever you are, whatever you want, whenever you need.

(REPEAT CHORUS)

(VERSE 2)

The days will come, the years will go, as time will pass like t  
he wind. We'll live and learn, tables will turn, colors will ch  
ange like the seasons. One thing will always be true. That is t  
he love I feel for you.

(REPEAT CHORUS 2x)
