Ah-oh, Ah-oh, Ah-oh (2x)

Listen up girls, pay attention
Take some notes on the things I'm about to mention
Sick and tired of the gossip and the drama
Heard it's coming straight from you

Just a young girl with ambition

Not looking for a fight or competition

There you go telling lies, spreading rumours

Of the things that just ain't true

This is rumour control
And I'm calling you out just to let you know
This is rumour control
Fed up with deception so won't you listen

No more secrets
Your lies are so obscene
Can't live my life with all these drama queens
All these whispers, dirty looks becoming more then I can take
I've come to realize I'm never gonna please you
I'll tighten up my crew so another race through
All the scandal and envy, betrayal
You girls are just to fake

This is rumour control
And I'm calling you out just to let you know
This is rumour control
Fed up with deception so won't you listen

This is rumour control

And I'm calling you out just to let you know
This is rumour control

Ah-oh, Ah-oh, Ah-oh (2x)

Sweetie it's easy to see Stepping all over my feet You couldn't dance for your life Trying to flow with my mike Baby I'm keeping it tight I know he's keeping it right Here we roll with no doubt, no fear Still clear so take notes Writing for life, right till I die Tossing them up, head to the sky Keep it real, we taking them higher And bring in the fire You can't deny her The devil's a liar And taking my closer They talking but so what Well here comes the beat up Keeping my feet up Who's staging the shots now?

She's got the heat now We're kids to the street now

This is rumour control (5x)
