You Make Me Mad

Jordyn Taylor

I hate it how angry you make me
Cuz it takes so much for me to fall in love
There's no one else I know could break me
Into a million pieces swept under the rug
Trying to cover myself up but somehow
When i least expect it, I was gunned down
Taking shots after love, my guard is down
I would tell my girls it isn't worth it
Don't you fall for him he don't deserve it
I love you but somehow,
You make me mad

You, you got me feeling so vulnerable
Love used to be the bad guy starring in the show
Don't know what's going on,
Put my house on, lights on, don't wanna be alone
You, you make me mad (3x)
Cuz i fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz i fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz I fell in love with you, with you, with you
You make me mad

My favorite love song is your ringtone
But i haven't heard it once at all today
Call me tomorrow, like nothings wrong
And you forgot that it's been 6 months since the day

Wanna tell myself that it was okay
Let you in, and you used to be like no way
Thought it was all part of love
Mama used to say,
"Baby girl sit down before you get hurt,
It's not a race, relax, dont need to get first"
I love you but somehow,

You make me made

You, you got me feeling so vulnerable
Love used to be the bad guy starring in the show
Don't know what's going on,
Put my house on, lights on, don't wanna be alone
You, you make me mad (3x)
Cuz i fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz i fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz i fell in love with you, with you, with you
You make me mad

If you know what I'm sayin'
Grab him right now and say it
Really mean, let me hear you say it
"You make me mad!"
If you know what I'm sayin'
Grab him right now and say it

Really mean, let me hear you say it
"You make me mad!"

With you, with you, with you
Cuz I fell in love with you
With you, with you,
Cuz I fell in love with you

You, you got me feeling so vulnerable
Love used to be the bad guy starring in the show
Don't know what's going on,
Put my house on, lights on, don't wanna be alone
You, you make me mad (3x)
Cuz I fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz I fell in love with you, with you, with you
(You make me mad, you, you make me mad)
Cuz I fell in love with you, with you, with you (3x)
