

Imperfect Circle

Jorja Smith

Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round in circles
Like we got no place to go

I've seen
A couple issues in the news that need discussing
But is there any point if they just keep repeating?
Will this ever end? Questioning ourselves again
Who say
You can't sit here, you can't come here
Wait that was back then
Eenie meenie minie moe
So who is left then?
Knocking us down one by one
Look, this game is not fitting
Why is this happening again?

Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round in circles
Like we got no place to go

I've seen
Too much news about abusing color
We're all a canvas would you paint me red if I was darker?
Too much blood spilt, it's like you can't escape the history
What was once is now now, just more eyes can see
We're all becoming too acquainted to these tainted lies
Like it's normal to be stop searched and then end your life
If I saw Martin would he tell me that he's had a dream?
But if he's dreaming I would rather let him stay asleep
'Cause it's...

Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round and round and round
And round and round we go
Round and round in circles
Like we got no place to go

Round and round and...
