Teenage Fantasy

Jorja Smith

You weren't the boy I thought I knew Maybe I was blind, I was young, I didn't have a clue You were the topic of my lunch times I'd bore the girls about our chance And get upset when you didn't text back

I was warned by my brothers to find another lover Stop falling for these boys who didn't want the same as me I was warned by my brothers to find another lover Stop falling for these boys who didn't want the same as me

We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it

I've got a lot of things to do What if I had been a fool And thought I was in love with you I need to grow and find myself before I let somebody love me Because at the moment I don't know me

When I was told by my father If I look into the future Do I really see this boy That I think I've fallen for And I was told by my mother If I look into the future Do I really see this boy That I think I've fallen for

We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it

When we are young We all want someone Who we think is the one Just to fit in There's no need to rush Take your time Life's a big old ride Sit back and enjoy the vibe When we are young We all want someone Who we think is the one Just to fit in There's no need to rush Take your time Life's a big old ride Sit back and enjoy the vibe We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it We all want a teenage fantasy Want it when we can't have it When we got it we don't seem to want it
