

Burn Your Flame

Jorn Lande

I was born to give you sound
I came to play and rock this town
Welcome to my shadow land
The moon is full and in my hand

Burn my flame
Burn my flame
Gonna burn my flaming fire

Burning like a firewind
And woman you're my sweetest thing
Night is young and we can fly
Life is short and then we die

Burn your flame
Burn your flame
Burn your flaming fire
Come on and burn

When layers of the darkest pain
Is weighing down your heart again
Hope will rise and make you strong
So come with me and sing my song

Burn your flame
Burn your flame
Burn your flaming fire
Oh...

Burn your flame
Burn your flame
Burn your flaming fire

Burn your flame
Burn your flame
Burn your flaming fire

Yeah...
Gonna burn it higher
Gonna burn... burn... flame of fire
Take it higher... higher... higher... higher... flaming fire
