

# Hellfire

Jorn Lande

Before me now  
I see a dying planet  
Captured souls  
With microchips implanted  
When warning came  
You stayed the same  
When warning came  
You stayed the same  
I am crumbling over the obstacles  
Nothing left to entertain  
The smell of burning corpses  
A new world domain  
I saw them coming  
A world from a far  
I saw them coming  
From a distant star  
I will break out from this madness  
There is nothing here but sadness  
I'm burning in the hellfire  
Hellfire  
I will break out from this madness  
There's nothing here but sadness  
I'm dancing in the hellfire  
Hellfire

Before me now I see a future  
A future black  
Oh... come and save me!  
I'm under soul attack  
A time of changes  
It rearranges  
A time of changes  
Oh... I will break out from this madness  
There's nothing here but sadness  
I'm burning in the hellfire  
Hellfire  
I will break out of this madness  
There's nothing here but sadness  
I'm turning in the hellfire  
Hellfire

I will break out from this madness  
There's nothing here but sadness  
I'm burning in the hellfire  
Hellfire  
I will break out from this madness... yeah  
I'm dancing in the hellfire  
Hellfire  
There must be a way  
I'm waiting  
Waiting for the day  
Hellfire  
Hellfire  
Burns higher  
Hellfire  
Higher  
Higher

Only blood remains  
There is nothing more to gain  
Hellfire
