

# Midnight Madness

Jorn Lande

I came here to bring you power  
But they all pulled me down  
And crushed my tower  
Far from heaven fighting the dragon  
Blind with anger like devil's spawn

Midnight madness - Sore with sadness  
Screaming the pain away...away  
Night wolf raving - Madman waving  
Howling my blues here in the shade

Like a wreck my rust goes deep  
I play it cool but my inside bleeds...yeah  
A falling angel in this evil well  
Dying forever in my lonely shell

Moonlight madness - Scarred from sadness  
Dreaming the shame away...away  
Night wolf crying cold and dying  
Nothing is new here in the shade  
Oh..cold and dying...dying...dying...ahh

Midnight madness - Sore with sadness  
Burning my rage again...again...  
Raving restless soon I'm breathless  
Nothing is new here in the shade

Oh...I'll cry my days of hell  
Inside this evil well  
Oh yeah...I'm near absolute zero  
Just a broken zero  
Nothing is new..nothing is true...  
I'm howling my blues here in the shade
